

From: (Dave Cupples MM/2 '61-'64) USS Norris

I was doing a random check of our USS Norris (DD859) photos, and ran across this one of your ship and thought I'd forward it over to you.

On the Norris, we once had a sailboat strapped down above the Dash hanger deck that belonged to the Captain which I thought was a little strange for a fighting ASW warship, but never a car. LOL..
